Hi Maddie,

Sounds good. I will let Adam know that he can work with you to get a room in your building, but they may want to book a conference room at the Courtyard Marriott near U Dayton like they have before.

Do you have a sense of when we might get something on the solid waste ARARs? If you still think a conversation with us and our respective attorneys is in order, let me know.

Leslie,

Let's have it in Dayton then. If CH2M Hill wants to have the meeting at their office, that's fine, though SWDO may be easier to accommodate with parking.

Any day that week is fine for me. I asked Mark and he is open any day except for Friday.

Here's Adam's description of what they want to discuss:

The overall path forward for the site and the scope of the OU1 and OU2 remedial investigations and feasibility studies (realizing that OU1 and OU2 may cease to exist under the new ASAOC). The purpose of the meeting would be to discuss the current understanding of the site, the known and potential risks, data gaps, and ARARs and to attempt to arrive at a mutual understanding of how to move forward with the RI/FS process.

It would be best if Mark could attend, in addition to whatever technical staff you feel are appropriate (hydro, risk assessor, etc.), so that may weigh the decision toward Dayton, unless everyone is ok traveling. Once we figure out whether it's Chicago or Dayton we'll figure out exactly where.

Leslie,

I am open that week. For everyone traveling, it might be easiest if we have the meeting during the week rather than on Monday or Friday. I will be out of the office the week before and the week after.

We can have it in SWDO again and do another site visit – or I can come to Chicago. Will CH2M Hill be there? They might be able to have it at their office.

Do we know why they have called a meeting?

Hi Maddie,

Adam emailed and asked if we would be available to meet with the PRPs and CRA, either in Chicago or Dayton, the week of June 23. Monday or Tuesday work best for me that week but I could do Friday or Wednesday morning if needed. We can do it in Dayton if it is difficult for you to meet in Chicago.
